

## *Top 5 Flowers for Containers for Full Sun*

Combination containers are a great way to add color to a deck or patio. And it can be a lot of fun to mix and match plants with different colors. But it can also be a headache with so much to choose from! Petunias are a great way to go, but what other options are there? Well let's take a look with our **Top 5 Flowers for Full Sun Containers.**

### 5. Geraniums

An oldie but a goodie, Geraniums make great center pieces in a combination planter. They stand tall while showing off big beautiful flowers all season long. And there are a lot of color options to choose from: red, pink, salmon, orange, white, and more! Their ruffled leaves give added dimension to a planter, making it an excellent choice!

## **4. Lobularia**

While maybe not the most well known flower, Lobularia still has a lot to offer in combination planters. It grows in sun to part shade and tolerates heat well. Lobularia also features an abundance of fragrant flowers all season long! A reliable choice for containers as a filler plant or by itself!

## **3. Angelonia**

Angelonia provides continuous bloom all summer long with their big flowers standing tall and proud on a columnar and upright plant. Angelonia is low maintenance, heat and drought tolerant, and deer and rabbit resistant. Angelonia will be sure to add a splash of color as a centerpiece in a combination planter!

## 2. Calibrachoa

Calibrachoa are excellent summer performing annuals. They are heat tolerant, tolerate dry conditions, and bloom prolifically all summer without deadheading! Calibrachoa comes in an array of colors, all of which look beautiful by themselves in a flower pot or as a filler in a combination planter.

## 1. Sunpatiens (compact series)

Compact Sunpatiens feature award-winning garden performance from coast to coast. They can grow 14-30" tall and 14-20" wide, making them perfect for a centerpiece in a combination planter or in a pot by themselves! You can count on worry-free performance because of...

- Full sun to part sun versatility
- Continuous color-spring through hard frost
- Thrives under high heat and humid conditions
- Easy to grow, low-maintenance care
- Downy Mildew resistant!
